## Non-Technical Events:-

### 1. The Wizard's Lair :-

An escape room is a physical adventure game in which players are locked in a room and must solve a series of puzzles and challenges to escape within a set time limit. The room is typically themed, with clues and props related to the storyline, and may involve multiple rooms or levels. Players must work together to find clues, decipher codes, and solve puzzles in order to progress through the game and ultimately escape.

### Rules:

- Participants: 3 Members
- The round is conducted for 45 Min.
- There are 3 levels.
- The winners are chosen by the time that they have taken to solve all the puzzles.
- Every room has a puzzle to solve. If they solve, they can move to the next room.

## 2. LAN Gaming:-

LAN gaming, or local area network gaming, is a type of video game playing in which multiple players connect their computers or consoles together through a local network, such as a router or switch. This allows players to play games together in the same physical location, without the need for an internet connection. LAN gaming can be done in a variety of settings, such as at home, in a gaming café, or at a LAN party. It can be a fun and social way to play games with friends and can also provide a competitive environment for players to improve their skills. Some popular LAN games include first-person shooters, real-time strategy games, and multiplayer online battle arena games.

### Rules:

- Participants: 3 Members
- There are 3 levels.
- Time Duration: 15 Minutes (Each Round)

## 3. TREASURE HUNT:-

“Rise and Shine. It is hunting time!”

A game in which each team tries to be the first to find the treasure with the help of clues, which have been hidden.
