COMPUTER SCIENCE AND ENGINEERING

THE FISTIAN's CAMPAIGN

CollegeVision :-
- To establish ourselves as a leading technological institution.

College Mission :-
- To provide professional, constructive and learner centered education.
- To make learners contribute to the development of the nation through academic and industrial excellence.
- To encourage learners involve in innovative researches with ethics.
- To produce competitive and confident graduates to face the ever growing challenges of the labour market.

Department Vision :-
- To become a leading hub in the field of Computer Engineering.

Department Mission :-
- To provide a strong theoretical and practical knowledge Emphasizing on software developments.
- To encourage autonomous learning, foster interactions and establish partnership with renowned Software industries.
- To inculcate soft skills, leadership qualities and innovative research skills with ethical values

HOD's MESSAGE :-
- Education is not an act of acquiring knowledge but learning a skill to lead life and forming one's personality. This is an ennobling process of growth. The Department strives hard to inculcate thought process among students in innovating through Research and product development in niche areas of Data science, Artificial Intelligence, Computer vision, Internet of Things and Network Security. I am happy to note that we the Department of Computer Science & Engineering is coming out with our First Monthly Newsletter. The Newsletter is presenting a glimpse of the growth of the Department on many fronts. I congratulate all the faculties for their commitment towards the provision of excellent all round education for our students. I also wish them to move forward with confidence, pride and enthusiasm.
- I wish good luck to the entire team of editors and look forward for your kind patronage to our newsletter.

GLIMPSE ON TECH UPDATE- MAY

AI Research Tool Backfires for New York Lawyer, Raises Unprecedented Legal Questions

A New York lawyer finds himself in a court hearing after his law firm utilized an AI tool called ChatGPT for legal research. The court faced an unprecedented situation when it discovered that a filing referenced non-existent legal cases as examples. The lawyer, claiming unawareness of the tool's potential for false information, defended his usage before the court
