- To make learners contribute to the development of the nation through academic and industrial excellence.
- To encourage learners involve in innovative researches with ethics.
- To produce competitive and confident graduates to face the ever growing challenges of the labour market.

### Department Vision :-

- To become a leading hub in the field of Computer Engineering.

### Department Mission :-

- To provide a strong theoretical and practical knowledge Emphasizing on software developments.
- To encourage autonomous learning, foster interactions and establish partnership with renowned Software industries.
- To inculcate soft skills, leadership qualities and innovative research skills with ethical values

### HOD's MESSAGE :-

- Education is not an act of acquiring knowledge but learning a skill to lead life and forming one's personality. This is an ennobling process of growth. The Department strives hard to inculcate thought process among students in innovating through Research and product development in niche areas of Data science, Artificial Intelligence, Computer vision, Internet of Things and Network Security. I am happy to note that we the Department of Computer Science & Engineering is coming out with our First Monthly Newsletter. The Newsletter is presenting a glimpse of the growth of the Department on many fronts. I congratulate all the faculties for their commitment towards the provision of excellent all round education for our students. I also wish them to move forward with confidence, pride and enthusiasm.
- I wish good luck to the entire team of editors and look forward for your kind patronage to our newsletter.

### GLIMPSE ON TECH UPDATE- JULY

Meta and Microsoft have jointly announced the expansion of their artificial intelligence partnership by introducing their new large language model (LLM) called "Llama 2". This cutting-edge language model is now available for both research and commercial use, making it a potential competitor to ChatGPT (OpenAI) and Bard (Google). The offering of Llama 2 for free enhances its accessibility and usability in various domains.

19 JULY 2023

Elon Musk, owner of Twitter launched the new logo of Twitter 'X' by replacing the iconic bird logo. The "X" logo has been in the pipeline for a while with Musk's strong want of an "everything app". Before he bought Twitter for \$44 billion, Musk described the platform as "an accelerant to creating X, the everything app" – something he plans to launch eventually.

24 JULY 2023

A new Internet ransomware virus called 'Akira' has surfaced in cyberspace, designed to steal crucial personal information and encrypt data, thereby coercing individuals into paying ransom money. Akira Ransomware: Operating Mechanism and Double Extortion Tactics This ransomware operates by targeting both Windows and Linux-based systems. Initially, the group gains unauthorized access to victims' environments, particularly through VPN services lacking multi-factor authentication. Once inside, they proceed to steal sensitive information from the victims. Prevention measures against 'Akira' Ransomware: Preserve current offline backups of crucial data to mitigate potential data loss in the event of an infection. Consistently update operating systems and applications to fortify defenses against vulnerabilities and potential cyber threats. Consider employing "virtual patching" to safeguard legacy systems and networks, deterring cyber criminals from exploiting outdated software.
